Notes and Disclaimer:

The Maximum User Payload includes: The Conventional Load; (this is the allowance for passengers), Essential Habitation Equipment (items and fluids required for safe and proper functioning of habitation equipment), Optional Equipment (items available from the manufacturer over and above the standard specification), and Personal Effects (those items not covered by the aforementioned items).

The Mass In Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver plus engine coolants and 90% of the fuel tank, water tank and gas capacity for a standard base vehicle. Optional equipment and accessories will generally increase this figure and reduce the payload accordingly.

Please take care to ensure that you have allowed for the masses of all items you intend to carry in the motor caravan, e.g. passengers, optional equipment, essential habitation equipment and personal effects, such as clothing, food, pets, bicycles, sailboards, sports equipment etc.

For warranty details, please refer to our website.
